Dear friend,

My name is John Kelly. I am 59 years old man.

I am in a hospital in Dubai. Recently, my Doctor told me that I would not last for the next six months due to my cancer problem (cancer of the lever)

I am giving my money away because of my health condition and the fact that my second wife is a terrifying woman to deal with, marrying her was the only mistake I made in my life.

She's currently managing my company here, but, I know what she's capable of, she has sold her soul to the devil and I do not want her to come near my money.

Regards, John Kelly
